Report on modified files

2014-05-07 09:28:25

This report aims to give you hints if and where you have unintendended modifications of code files delivered by Vector.
It lists all relevant source code files delivered by Vector.
For each file it is reported if and where the file is found in your project directory and if the file is unmodified.

Values of Status:
- ok: The file is used without modifications.
- warn: The file is not used. (or at least not found)
- error: The file is used but has modifications.

Result

Vector has referenced 310 files on 2014-04-14 11:44:13.
You are using 115 files without modifications.
You are using 185 files with modifications.
You are not using 10 files.

File Overview

FileName	Location	Status
Adc.c	C:\Example\CodeRootPath\Adc.c	ok
Adc.h	C:\Example\CodeRootPath\Adc.h	ok
Bsd_Types.h	Original file: .\BSW\Bsd_Types.h	not used
BswM.c	C:\Example\CodeRootPath\BswM.c	modified
BswM.h	C:\Example\CodeRootPath\BswM.h	ok
